ADMISSION, FREE.

Skipped the Town.
By Cable and Associated Press.
LONDON, Nov. 6.—The American Sherman, whose marriage to Miss Burns through an alleged conspiracy caused a scandal last year, has disappeared from the leading tradesmen of that place. Sherman is believed to be identified with the man charged by the New York authorities with complicity in the metal alloy frauds.

The Lord Mayor has asked the striking lightermen to send representatives to meet Cardinal Manning and Sydney Burton tomorrow.

The Cronin Trial.
By Associated Press.
CHICAGO, Nov. 6.—In the Cronin case to-day Robert T. Stanton, a printer, identified a card presented to Dr. Cronin when enticed away to his death as printed by him and delivered to defendant O'Sullivan only two days before the murder.

Ex-Captain Wing of the Lakeview police identified the bloody trunk as the one brought by his men on the day following the murder, and Herman Thiel identified it as the one found by him in a ditch by the roadside.

Business Blocked.
By Cable and Associated Press.
LONDON, Nov. 6.—The lightermen's strike has blocked all deliveries by water from the dock warehouses, and compelled thousands of dock laborers to remain idle. The export trade is disturbed by the strike, and the stevedores are refusing to load vessels.

Last Evening's Lecture.
The W. C. T. U. of Reno are to be congratulated on the success of the series of meetings being held under the management of Major Hilton. A perfect jam attended the Major's lecture at the Opera House last evening, and there was every evidence that interest on the temperance question is rapidly increasing. The speaker's explanation of the effect of a prohibition law in Maine caused much merriment, and his description of the Government beer saloon at the Soldier's Home at Dayton, Ohio, with United States soldiers acting as bar-keepers, was news to his audience.

Winter Goods at Bottom Prices.
An examination of the new ad. of the Palace Dry Goods and Carpet House will convince you that all goods carried by that popular firm are being retailed at as low as the same quality can be had in any retail establishment on the coast. Give their goods and prices a careful inspection and you will be convinced of the truthfulness of the above.

An inspection of Fred Kolster's ad. in today's Gazette will show you where to go for the most stylish, comfortable and neatest fitting suit that ever covered your manly form.

YESTERDAY'S VOTE.
Ohio and Iowa Both Go Democratic.

SERIOUS TROUBLE IN VIRGINIA.
Mahone Arrested for Defending His Home.

YESTERDAY'S ELECTIONS.
The Republicans Substant in Massachusetts.

By Associated Press.
BOSTON, Nov. 6.—With the city of Quincy and thirteen towns missing, the totals of yesterday's election are as follows: Brackett, 123,691; Russell, 117,523; Blackman, 13,263. The returns for Lieutenant-Governor are incomplete, but Hale's plurality will probably be much larger than that of Brackett.

The make-up of the Legislature, according to these returns will be: Senate, 30 Republicans and 10 Democrats, against 32 Republicans and 8 Democrats this year; House, 157 Republicans, 70 Democrats, and 13 to be heard from, against 180 Republicans and 60 Democrats this year.

Ohio.
CINCINNATI, Nov. 6.—The footings of Hamilton county, with seven precincts to be heard from, give Campbell a plurality of 7,645 over Foraker. One Republican State Senator has been elected.

The returns received from 818 of the 2,190 voting precincts outside of Cincinnati shows the vote for Foraker to be 136,752 and Campbell 131,516, the same as in 1887 gave Foraker a vote of 134,000.

The news from the State is fragmentary and incomplete. Democratic gains are generally reported.

COLUMBUS, Nov. 6.—The extra edition of the Dispatch (Ind. Rep.) claims that the official count will be necessary to determine whether Foraker or Campbell is elected Governor. It is generally believed the Legislature will show a Democratic majority, but this the Republican Committee does not concede. Chairman Conger of the Republican Committee at noon said they did not concede the State to the Democrats, but expressed a desire to wait for fuller returns before giving out an estimate further than to say that the Legislature is in doubt.

Chairman Neil claimed a majority of ten on joint ballot this morning for the Democrats, but is not now so certain as to the result. It may require several days to settle all doubts as to the General Assembly.

CINCINNATI, Nov. 6.—In the complete returns from all the counties in the State, except 26, Campbell has a plurality of 4,725. The 26 counties not heard from gave Powell (Dem.) in 1887 a plurality in 19. The outlook from the figures is that Campbell's plurality in the State is about 8,000.

The Republican State Committee at 1 P. M. conceded the election of Campbell and admit that the Legislature is Democratic in both branches. Governor Foraker has telegraphed his congratulations to Campbell.

Virginia.
NORFOLK, Nov. 6.—The returns this morning indicate that this Congressional District was carried by the Democrats by 2,000 majority, a Democratic gain of 8,200.

RICHMOND, Nov. 6.—Two-thirds of the State shows large Democratic gains in every section. The gains now exceed 30,000 over the vote of last year, with losses of less than 200. The Democrats will have a two-thirds majority on joint ballot in the Legislature.

VIRGINIA DEMOCRATS CELEBRATE.
PETERSBURG, Va., Nov. 6.—A scene bordering on terror took place in front of Mahone's house last evening. About 11 o'clock a mob of drunken men came down the street firing off rockets and roman candles and shouting. When they reached Mahone's residence they halted and fired three rockets against his house, accompanying their action by derisive remarks and hurrahing for McKinney. "Come out, come out. We dare him to show himself," cried the ringleaders. Seizing a double-barrel shotgun, loaded with buckshot, Mahone opened his front door and Butler Mahone and a number of friends, also, went out. For a time it seemed as if there would be bloodshed, as it is understood that revolvers had been displayed. Charles N. Romain, a dealer in fireworks, was at the head of the crowd, and shouting to Mahone he cried: "Shoot, you blank-blank." The crowd shouted again derisively and poured a volley of fireworks towards the house. By this time it was discovered that one of the party with the fireworks had been shot, and the entire party left. About midnight the Chief of Police appeared with a warrant sworn out by the main, charging Mahone with an assault with intent to kill one H. S. Harrison. Mahone was held in \$2,500 bail, which was furnished. Mahone said that the gun which he brought out of his house when the crowd appeared there was not loaded.

New York.
NEW YORK, Nov. 6.—The 10:30 edition of the World says the Democratic victory is more sweeping in the light of to-day's returns. The Democrats not only carried the State by 20,000 to 25,000, but gained ten members of the Legislature.

The State Legislature will stand about as follows, there being one or two districts still to be heard from: Senate, Republicans 19, Democrats 13; Assembly, Republicans 67, Democrats 61. In the present Legislature the Republicans have a majority of 30 in the Assembly and 10 in the Senate.

The Maryland Legislature will certainly be Democratic, but by a reduced majority. The latest reports show a Republican gain of four Senators and sixteen members in the House.

Iowa.
CHICAGO, Nov. 6.—Special dispatches from Des Moines, Iowa, at 3 o'clock this morning to the Herald (Dem.) say the Republican State Committee has conceded the election of Boies by from 5,000 to 8,000 plurality. Later returns show the election of the entire Democratic State ticket by a majority probably exceeding 10,000.

Dispatches to the Tribune (Rep.) admit that if the gains so far keep up the Republicans are defeated.

DES MOINES, Nov. 6.—The Register (Rep.) claims the election of Hutchinson by 2,000 majority.

DES MOINES, Nov. 6.—The Herald has returns from half the counties in Iowa, and they figure up 12,500 majority for Boies. The other counties will reduce this somewhat, so that probably his majority will run from 5,000 to 8,000. Every county heard from shows Democratic gains, and a few additional returns received this forenoon show a heavier gain than has been estimated. No one here, either Democrat or Republican, has any doubt of Boies' election.

Chairman Dunn of the Democratic State Committee sends a dispatch here from headquarters at Des Moines, dated at 10 o'clock this morning, stating the committee is certain that Boies is elected by a safe plurality.

DES MOINES, Nov. 6.—The Register says that 680 precincts, representing almost half the vote of the State, give Hutchinson 78,223 and Boies 75,458, a net Republican loss of 8,774. The average ratio of the Republican loss this morning in 70 precincts showed but 3.25 per cent. against 7 per cent. last night, indicating a slight chance for the election of Hutchinson, and a good chance for the election of all the balance of the Republican ticket.

New Jersey.
JERSEY CITY, Nov. 6.—Later returns from portions of New Jersey indicate increased Democratic gains. Abbott's plurality for Governor is now believed to exceed 10,000. The political complexion of the State Senate still hinges upon Atlantic county, which both parties claim. The Assembly will consist of 36 Democrats and 22 Republicans.

Cotton Oil Trust.
By Associated Press.
NEW YORK, Nov. 6.—The committee on the re-organization of the cotton oil trust made a report this afternoon which showed the President and Treasurer of the trust used the funds of the trust for the purpose, as they stated, of maintaining and strengthening the credit of the concern by supporting the price of certificates, and that over half a million dollars has been lost in this manner.

Finally Settled.
By Associated Press.
CHICAGO, Nov. 6.—Yesterday \$400,000 was paid over by the Provincial Government to Father Targen, representing the Jesuit Order in Canada, in consideration of that Order's total and perpetual abandonment of its claim to the estates which became the property of the Crown when the Order was suppressed nearly a century ago.

Two Men Killed and Another Fatally Wounded.

The Cruiser Charleston Finally Accepted.

A Desperate Affray.
By Associated Press.
WASHINGTON, Nov. 6.—An affray occurred last night in a low negro saloon in a disreputable part of the city, known as "Hell's Bottom," which resulted in the death of two men and probably the fatal wounding of a third. The trouble originated over a misunderstanding between two young negro roughs, George Bush and Osborne Basey. They met last night, when Bush fired four shots, two hitting Basey, one in the lungs and one in the shoulder. Policeman A. N. Crippen pursued Bush into a neighboring house, when Bush fired four shots, two hitting the negro in the breast, knocking him down. The latter fired twice while down, hitting the negro in the breast both times. They then grappled, and in the struggle the negro's revolver was discharged again, entering the policeman's brain, killing him instantly. Bush died later, and Basey will probably die.

Dr. Peters Reported Killed.
By Cable and Associated Press.
ZANZIBAR, Nov. 6.—It is reported here that the Massais or Somalis have massacred Dr. Peters, the German explorer, and the whole party, except one European and one Somali, who were wounded and are now at Ngao. The latest known here about Dr. Peters, who started inland from Yitu on July 26, was that he had reached Korkore, a long distance up the Tanu river. It is not known whether the second column of the expedition, which left Yitu in September under the command of Borchert and Rust, ever joined Dr. Peters' advance party.

An Ugly Looking Strike.
By Associated Press.
NEW ORLEANS, Nov. 6.—A strike among the railroad switchmen began at the yard of the Northeastern road some days ago is spreading. The workmen in the Southern Pacific, Illinois Central, Louisville & Nashville and Valley roads also went out yesterday. The strikers warn off the new men employed to take their places. Affairs look ugly. The strike is for an increase of wages.

Solomon Island Cannibals.
By Cable and Associated Press.
MELBOURNE, Nov. 6.—The cannibals of Solomon Island have murdered and devoured an Englishman named Nelson and three native boys. Learning of the massacre, the Captain of the British cruiser Royalist proceeded to the scene and shelled the villages along the coast, and the natives fled to the hills. Other cases of cannibalism on the island are reported.

The Charleston Accepted.
By Associated Press.
WASHINGTON, Nov. 6.—The Secretary of the Navy has ordered the acceptance of the Charleston, and has so notified the Union Iron Works of San Francisco. The question of penalty will be considered when the final settlement is made.

The Alaska Boundary.
By Associated Press.
OTTAWA, Nov. 6.—Otto J. Klotz, the astronomer of the Interior Department, has returned from Alaska, where he has been gathering data to be used in the negotiations for a settlement of the Alaska boundary.

Canadian Annexation.

Reckoning how men's pecuniary interests affect their ideas, we long ago said that if our people would cease to agitate the matter of the annexation of the Dominion, it would, following natural laws, slowly gravitate toward us, until a majority of its people would petition for its admission. There are two most powerful agencies at work to bring this about. The first is, the Dominion is not prosperous. With all the efforts of the local government, backed by all the help Great Britain can lend, the population increases but slowly. Our markets are its natural markets but an imaginary line runs like a Chinese wall to keep her products out. Worse still, her young men, her brightest and best, by thousands flock this way annually, and pursuing another natural law, the young women follow them. The Salt Lake Tribune says: Fifty thousand, and probably four times fifty thousand, old men and women in Canada feel daily tugging at their garments the hands of grandchildren that they have never seen, drawing them this way, and before that call all their native, stubborn pride breaks down, for a live grandchild is more to a man than a whole gallery full of the pictures of ancestors, some of whom may have been exceedingly tough citizens. There is an old story of a young lady who was on shipboard, and was distracted which to choose of four lovers who were pleading for her hand. One day, in mid ocean, in sheer desperation, she sprang overboard. Three of the lovers jumped after her to rescue her, and among them succeeded. Then the young lady married the fourth one, who had remained on the deck smoking while the other three got their wetting and took their chances with the sharks. If, following that philosophical young man's example, the people of the United States will but remain quietly on deck, the edicts of trade and the little hands of the grandchildren will draw the Dominion to us as soon as she ought to come. Upper Canada and British Columbia would be a great addition to our country. So would the English speaking people of the far East, but there are a great many thousand people on the lower St. Lawrence who would be of no special help to us. It is very doubtful whether or not they are either by nature or education fitted to take part in the government of a free country. At least there is no hurry. When the Dominion people of their own accord knock at the door of the Union, it is ample time to say, "Come in and welcome."

It is poor policy for the Journal to fly off the handle and talk about forcing the Board of Regents for doing their duty. We see no occasion for jumping onto the rest of the faculty either. The Regents thoroughly investigated the matter and did that which was for the best, and we can see no cause for complaint. We beg to differ with the Journal in its statement that the sentiment in Reno is against the action of the Board. Careful inquiry shows it to be fully in sympathy with their action.

E. A. ELLIOTT, Chairman of the Press Committee of the National Silver Convention, to assemble in St. Louis, on the 26th inst., writes the GAZETTE as follows: The entertainment being arranged by St. Louis will include a grand Thanksgiving-day dinner. This will be of an elaborate description and a decided novelty. It will probably be held in the hall of the Merchants' Exchange, which has the largest floor area of any hall of its character in the country. The hall will be elegantly decorated with flowers and trimmings usually used. There will also be entertainments during the other four days of the session of the convention, and St. Louis will make every effort to surpass herself in caring for her guests. The delegate representation will be large from all the States and Territories in the Union. The Governors of the States and Territories to whom is delegated the authority of appointing

delegates, have shown a great deal of care in selecting the best possible men for the positions. The same care will be taken by the Executive Committee in its selection of one hundred delegates at large, provided for, from the United States. The attendance from members and ex-members of Congress will also be large. From present indications, that the convention will result in a great deal of good, and in educating the people of the country, particularly of the agricultural districts, up to the importance of the Silver question, outside of what benefit it may be to those actually engaged in the mining industry, there can be little doubt.

To-day's returns on yesterday's elections indicate that the Democrats have carried Virginia by from 20,000 to 25,000 majority, Ohio by several thousand and Iowa by from 5,000 to 8,000 plurality. The liquor question is doubtless the rock on which the Republican party was split in the two latter States.

African Gold Region.

The new city of Johannesburg in the South African gold region is attracting attention, and there are those who predict for it a phenomenal future. They promise a million inhabitants in five years, an output of gold which shall gild the whole world, a commercial importance threatening the established trade centers of the Old World, and a political and social position second to no city in Africa, north or south.

Life Sentences.

Harry Glenn and Bart Watson have been sentenced to life imprisonment for murdering Superintendent Richards of the Carthage mine, in Socorro county, N.M. The two convicts were cowboys and dashed up to the mine when the men were being paid off. Richards showed resistance and was killed. The two robbers then seized the money, about \$30,000, and made their escape, but were followed and captured.

THE

OPERA HOUSE

DRY GOODS STORE.

Fall * Announcements!

IT IS NOW GENERALLY CONCEDED BY MEN OF SCIENCE

who attend to all the weather experiment stations on this coast that

this locality in particular is going to be very cold this winter. In

consequence of these indications,

C. W. BOOTON

Went to San Francisco and spent the past two weeks purchasing a

Stock of Fall and Winter Goods,

The gigantness of which cannot be fully realized in any way but by

calling to see it at the OPERA HOUSE DRY GOODS STORE, and

will only say that the

Prices at which he intends to sell his new

stock will be unprecedented

In the history of dry goods in Reno, as "Quick Sales and Small

Profits" is his motto in business.

To enumerate his stock and give it entire justice he should have

all the columns of a newspaper devoted to his advertisement only,

but as he cannot get any more room in the columns of this paper, he

will only enumerate some of his special heavy importations.

First—His stock of

Men's Underwear

At the following prices, note them:

20 dozen of men's white merino shirts and drawers at 35c each,

regular price, 75 cents.

31 dozen of men's silver grey shirts and drawers at 75c each,

regular price, \$1.00.

49 dozen of men's shirts and drawers, California grey, at \$1.00

each, regular price, \$2.00.

52 dozen Virginia & Truckee shirts and drawers, all-wool, at \$1.50

each, regular price, \$2.00.

These goods are of special value and sell on sight. See them.

33 1/2 dozen extra heavy shirts and drawers, Oregon Mills manu-

facture, at \$2.00 each. These goods would be counted cheap at \$3.

35 dozen Norfolk and New Brunswick brown vicuna at \$2.50 each

generally sold for \$3.50 each.

50 dozen men's seamless Rockford socks at \$1.50 per dozen that

are being sold everywhere in this city for \$3.00 per dozen.

An Endless Variety of Ladies', Misses' and Children's Undewear,

In all grades. In the

Comforter and Blanket Line

It is well known he is headquarters for those goods. Comforters

ranging in price from \$1.00 to \$5.00 each. Golden Gate white and

colored blankets are a specialty.

In the Clothing Department

He carries a complete and well-selected stock. Note a few of his

specialties in this line, viz: 25 suits of men's, all-wool, English colored

corkscrew, custom-made at only \$20.00 a suit, usually retailed for

\$35. A fine line of black corkscrew suits at \$20.00. A fine line of

mixed English chevronsuits at \$18.00. A very fine line of black

corkscrew suits at \$12.50 a suit. The usual price asked for these

goods in the city is \$17.00

A Large Assortment of Hats and Caps

Always on Hand.

In the Dress Goods Department

He has added a fine and well-selected stock of all the leading shades

of French armures, French brocades and English chevrons, which are

offered at prices that defy competition.

In the Shoe Department

It is well known that he is the only agent in this city for the

Famous Nolan Brothers' Shoes.

He has also in stock Cahn, Nickleburg & Co.'s fine shoes, whose

make are now very popular.

Calicoes and Ginghams

In Endless Variety.

Having purchased the above goods for

JOTTINGS.

Fresh eggs at Leadbetter's.

Deviled ham at Leadbetter's.

The best ranch butter at Leadbetter's.

Genuine amber hairpins and faultery collars and cuffs at Miss Emma Gibbs.

No effort is spared to make the Riverside Hotel the best family resort on this side of the Sierras.

For a nice bath in a spacious porcelain tub, a neat shave or a shampoo, patronize John Belz' Commercial Row shop.

For a nice lunch, any brand of the best wines, or a good cigar, go to S. L. Coburn's agency for John Weland's bottled beer.

C. J. Brookline's variety store is where you can always find the best variety of candies ever offered in this market.

Both steel and pencil erasers, writing and drawing pencils, school slates and walking canes of all sizes at C. A. Thurston's news depot.

If you are looking for a palatable noon lunch, go to J. J. Becker's Chicago Saloon where is to be had both Bosa and Sacramento beer.

J. N. Wallace's Commercial Row store is the place to find all kinds of the best family groceries as low as the same quality was ever sold in the State.

Not being a candidate for office, gives George Becker a plenty of time to attend to the wants of all cash patrons, and he is not looking for any other kind.

By leaving orders with J. M. Felton at the N. & O. R. R. office he will have first class baggage, oak or pine wood, either limbed or split, delivered to your house. Every purchaser is requested to verify measurement. The pitch pine is left in this wood, and not picked out and sold for twelve dollars per cord.

Commensurate.

All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully praised. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are afflicted with any disease of the Kidneys or Liver or Stomach, of long or short standing, you will surely find relief by the use of Electric Bitters. Sold at 50c and \$1 per bottle at Hodgkinson's drug store.

Croup Can be Prevented.

We want every mother to know that croup can be prevented. There is no question about this; as it has been done in thousands of cases, and you may depend upon it that when a child takes the croup, it is owing to the negligence of its parents. True croup never appears without due and timely warning; a few hours, or a day before the attack, the child becomes hoarse. This hoarseness is the first indication of croup, and is a sure sign that croup is to follow, unless promptly and properly treated. The free use of Chamberlain's Cough Remedy as directed with each bottle, under the heading "To prevent croup" will dispel all symptoms of the disease. For sale by Osburn & Shoemaker.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Hodgkinson's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, croup and all throat and lung diseases are quickly cured. You can test it before trying by getting a trial bottle free; large size, 50c. Every bottle warranted.

The Best There Is.

A new typewriter has been invented by the party who invented half of the Remington and all of the Caligraph. It has no ribbon, no wooden bars, but is all steel, prints true and without any blur. It costs an even hundred dollars, and is worth two of any other machine. It prints better, wears longer, is easier to learn and works faster, besides other recommendations. C. A. BRAGO, Agent.

"DAVY CROCKET"

To be Presented by Frank Mayo at the Opera House.

The New York Star says: That "Davy Crockett" has lost none of his attractiveness or that it had not ceased to be a source of profit to its owner, was evidenced by the very large audience that assembled at the People's Theater last evening. Mr. Frank Mayo made fame and fortune with this ever green play, as he calls it, and made the title part peculiarly his own. He was accorded a most generous greeting, and in the scenes that depicted the daring and courage of Davy Crockett, was applauded to the echo. His support was good. The scenery and mounting was very handsome and effective.

To be presented at McKissick's Opera House on Saturday, the 9th inst.

A REAL BONANZA.

Over a Hundred Pounds of Gold in Two Months.

The Grass Valley (Cal.) Tidings of the 4th inst. says: One hundred and five pounds of gold, representing the yield from ore crushed in a hand mortar in two weeks, by three men, was safely brought to Nevada City on Saturday night by the Downville stage and express messenger Douglas.

The bullion is valued at over \$21,000 and came from Chippa Flat—near Alleghany City, Sierra county—that province of bonanzas. The fortunate prospectors are known as "the Grant Boys," we understand. In the course of the last few years they have frequently struck rich pockets at Chippa Flat and it seems that their lucky stars are still in the ascendant.

The gold had to be brought from the mine to Forest City on a mule.

Very Important.

Yesterday John Irwin sold 140 tons of alfalfa hay raised on the Poor ranch to Grayson, Owen & Co. of Oakland for \$7 per ton—Gazette.

All a mistake. John Irwin, a month ago, sold out all his hay, horses, etc., on the Poor ranch to a gentleman for \$1,700, and that gentleman, day before yesterday, sold some of the hay to Grayson, Owen & Co., but not for \$7 per ton—Journal.

The GAZETTE got its information from Tom Keating, who informed a reporter of this paper that he was authorized to purchase and did buy for Grayson, Owen & Co. 140 tons of the John Irwin hay for \$7 per ton. With the exception that the hay and other property was sold to a "gentleman," the fact that Irwin had previously transferred the hay to another party will not be of very absorbing interest to the general public.

Rather Ragged About the Edges.

This morning a rather broken up specimen of the tramp order passed through Reno. From his attire one would naturally suppose that he was looking for some warm climate, as he was both barefooted and bareheaded. His overalls were of the "breezy" kind, but he didn't seem to mind it. At some remote period he was evidently the happy possessor of a white linen duster, but all that remained of it was the collar and one sleeve, pinned together with a horseshoe nail, while he had used a piece of the skirt as a necktie. His shirt looked as if it had been stolen from some unsuspecting scrag crowd. The last seen of him he was moseying westward along the river bank with a "get there" look in his eyes, and whistling "In the Springtime, Gentle Annie."

PERSONAL.

John Irwin left this morning for the north of Ireland, the land of his birth.

Miss Mary and William McIntosh arrived this morning from Vancouver.

G. W. Baker and wife and Hon. A. F. Cheney returned east on this morning's express.

Maurice Van de Verdi will leave tomorrow morning on a visit to his old home in Canada.

Attorney-General Alexander went to Winnemucca this morning to attend to the Humboldt river water suits.

San Francisco Meat Market.

There is liberal supply of the several kinds, and prices generally shape favorably for buyers. Following are the rates for whole carcasses from slaughterers to dealers:

BEEF—First quality, 60¢; second quality, 55¢; third quality, 50¢.

PORK—Quotable at 50¢; for large and 45¢ for small.

MUTTON—Quotable at 40¢; for large and 35¢ for small.

LAMB—Quotable at 30¢; for large and 25¢ for small.

PORK—Live hogs, on foot, grain fed, medium, 50¢; heavy, 45¢; soft, 40¢; dressed hogs, 75¢; 85¢.

Last of the Gang.

A Texas exchange says: They had all the old-time toughs around Gunnison disposed of two weeks ago except Pete Baker, and they were wondering how they could get rid of him, when he pranced out on the street with his gun and yelled for blood. Forty revolvers cracked almost in chorus, and when they lifted Peter up he was a pretty fair coal screen.

The Iversness House.

This new brick hotel has been opened to the public, where the best accommodations can be found. See ad.

The Fruit of Violation.

In no case is the folly of violence in medication more conspicuously shown by its fruit than in the effect upon the intestines of excessive purgation. The stomach and bowels are first painfully gripped, then the latter is copiously, suddenly and repeatedly evacuated. This is far beyond the necessities of the case, most unnatural, excessively debilitating. The organs are incapacitated from resuming their function with normal moderation. Astringent is resorted to which reduces them to their former condition of inaction. To this monstrous and harmful absurdity, Hostetter's Stomach Bitters is the happy alternative. It relaxes gently, naturally, sufficiently, it diverts bile from the blood into its proper channel, it insures healthful digestion and complete assimilation. It is a complete defence against malaria, and cures rheumatism, neuralgia, nervousness, kidney and bladder trouble.

One hundred and forty head of horses belonging to J. D. Ebers of Janesville, Lassen county, Cal., arrived here last evening on the way to Mason Valley, where they go to be fed for the winter.

The funeral of the late Alexander McIntosh took place from the Congregational Church this afternoon, and was largely attended by the many friends of the family. The services were conducted by Rev. Mr. Magill.

Humboldt Items.

The Winnemucca Silver State says: Some Utah mining men examined the Sheba mine at Star last week and are negotiating with its owner, Peter Woolcock, of Mill City, for the purchase of it.

A requisition made by Captain Riel, of the Humboldt Guards, about three months ago for fifteen new uniforms has just been filled. The uniforms have arrived and a dozen or more uniformed men will be added to the guards.

Sunday night 46 carloads of cattle went west and last night 38 carloads were taken in the same direction. These cattle were shipped from points up the river. Estimating the number in each car at 30 head, these shipments would make a drove of 1,680 head.

The Faculty Reorganized.

Immediately on the expiration of President Brown's tenure of office as President the Faculty held a meeting, every member being present, and reorganized. Professor Clapp was elected Chairman of the Faculty, and, with an Advisory Committee consisting of Professors Miller and Jackson, constitute the executive. Major A. C. Ducat was elected Secretary of the Faculty. The organization thus effected was bulletined this morning, and recitations proceeded without a break. Professor Jackson addressed the young men and Miss Clapp the young women regarding their conduct and duties at the University.

ADVICE FROM BELOW STAIRS.

"Bridget, I would give all my wealth for half of your health."

"Sure, me! You need only give \$5, for that's the price of six bottles of J. V. R., as the boys call it. Joy's Vegetable Sarsaparilla will make you as strong as me, me'am."

Mrs. J. Barron, of 142 Seventh street, San Francisco, writes: "I have been taking Joy's Vegetable Sarsaparilla with immense benefit. It is perfectly splendid to build up nervous run-down and worn-out women." Mrs. Fred Ley, of 327 Ellis street, Mrs. G. Warner 61225, Berry street, and hundreds of others relate the same experience with the pure vegetable juices of this California compound.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than those of sickness. The young mother vividly remembers, that it was Chamberlain's Cough Remedy cured her of the croup, and in turn administered it to her own offspring and always with the best success. For sale by Osburn & Shoemaker.

THE PROPHECIC DONKEY.

One of President Lincoln's Inimitable Stories with a Moral.

There was a local politician went to Washington to get an office that he felt sure only awaited his application for it to be given to him. In a couple of weeks he came back.

"Well, did you get your office?" his friends asked him.

"No," said he.

"Did you see President Lincoln?"

"Yes," said he.

"What did he say?"

"Well, we went in and stated our errand. He heard us patiently, and then said:

"Gentlemen, I am sorry I have no office for Mr. X., but if I can't give you that I can tell you a story."

"We thought best to hear the story, and let him go on."

"Once there was a certain King," he said, "who kept an astrologer to forewarn him of coming events, and especially to tell him whether it was going to rain when he was going out on hunting expeditions. One day he had started for the forest with a train of ladies and lords for a grand hunt, when the party met a farmer riding a donkey."

"Good-morning, farmer," said the King.

"Good-morning, King," said the farmer; "where are you folks going?"

"Hunting," said the King.

"You'll all get wet," said the farmer.

"The King trusted his astrologer, of course, and went to the forest; but by mid-day there came on a terrific storm that drenched and buffeted the whole party. When the King returned to his palace, he and the astrologer decapitated, and sent for the farmer to take his place."

"Law's sake," said the farmer, when he arrived, "it ain't me that knows when it's going to rain; it's my donkey. When it's going to rain he backs up, and when it's not he goes forward."

"Make the donkey the court astrologer!" shouted the King. It was done. But the King always declared that the appointment was the greatest mistake that he had ever made in his life.

"Why did he say it was a mistake?" he asked him; "didn't the donkey do his duty?"

"Yes," said the President; "but after that every donkey wanted an office."

"MORNIN', MARS JESUS."

How an Aeronaut Was Greeted by a Poite Old Alabama Negro.

Not long after the war a circus came to Montgomery. It was the first circus that had been there in a long time, and says the Atlanta Constitution, attracted an immense crowd, especially of negroes. The most interesting feature of the entertainment was the balloon ascension.

The negroes had never seen anything of that kind, and regarded the spectacle of a man sailing up into the clouds very much as they would have looked upon Elijah going up in his chariot of fire. The balloon sailed away eight or ten miles and came down in a field where some negroes were plowing. Terrified at the spectacle of a chariot coming down from Heaven, and really believing that the last great day had come, and remembering all their short-comings, fled away in terror at the approach of the awful judge.

One gray-headed and rheumatic old negro was unable to get away. He could follow the plow, but he could not run, and the chariot came down upon him with terrible swiftness. In that awful moment his whole life rushed upon him, he thought of all the petty sins he had committed and the ghosts of a hundred chickens seemed to rise up in judgment against him. But in that desperate emergency his mind did not desert him, and remembering that politeness always counted with his earthly master, he quickly decided to greet the Lord of Heaven and earth in a becoming style. As the aeronaut touched the earth and began to untangle himself from the meshes about his car the old darter, with an air of profound obedience, removed the wool hat from his shiny pate, bowed low, and said with pious unction: "Mornin', Mars Jesus, how you left your pa?"

DIRTYING THE RUG.

How a Little Tot Made Her Mother's Visitors Feel Uncomfortable.

A couple of ladies who were recently calling in Brookline, says the Boston Courier, were ushered into a parlor upon the floor of which lay a rug with a middle of solid crimson. After they had crossed this brilliant expanse they were horrified by the discovery that every footstep they had taken was clearly printed in dust upon the otherwise stainless surface of the rug.

As they sat gully regarding the soiled rug the small daughter of the hostess came into the room, and the minute she entered her eyes fell upon the footprints.

"Oh, just see there what you've done," she cried.

"You just see what my mamma will do to you; she has that rug all cleaned nice this morning for company to-night. She told me she'd send me to bed without any ice-cream if I stepped on it."

This was all delivered in a tone of voice which left no room for doubt of its sincerity, and the callers were divided between a sense of their guilt and an inclination to laugh at the manner in which it was brought home to them. Fortunately for their peace of mind the hostess entered at that moment and explained that the rug was one which showed every trace of dust, and that she found it necessary to take strong measures to keep it free from the tracks of her children's feet, but that it was not an offense to step on it for which she could not forgive her friends.

FINALLY RECOGNIZED.

How a Missouri Senator Succeeded in Catching the Speaker's Eye.

This bit of Missouri history is taken from Henry George's Standard. The writer doesn't sign his name:

Stilson Hutchins is a well-known newspaper man of Washington. He used to live in Missouri, and at one time represented his district in the Legislature. There was in the same Legislature a member from another district—a man whom Hutchins had conceived a prejudice against. This man wanted to bring up a bill in the interest of his constituency, but he never seemed to be able to catch the Speaker's eye. Day after day he would wait until routine matters had been cleared away, when he would rise in his place, and in the peculiar Missouri high treble, address the presiding officer, but without receiving that recognition without which no member of a parliament or body can proceed. The member finally became tired of such treatment, and one morning after the House had been called to order he marched in with a rifle on his shoulder, which, when he reached his seat, he leaned up against his desk. He sat there quietly until he thought the routine business was about all disposed of, when he slowly picked up his rifle and cocked it. When the last motion had been put and disposed of our friend arose, placed his rifle against his shoulder, drew a bead on Speaker Hutchins and drawled out: "Mr. Speaker." There was a silence as of death in the Assembly chamber for a few moments, which was finally broken by the Speaker himself, who slowly and distinctly said: "The gentleman from — has the floor." The member lowered his rifle, uncocked it, and then, as if nothing had happened, proceeded to lay his bill before the legislators.

THE TWO-HEADED GIRL.

A Queer Case Which Once Came Before a New York Lawyer.

In the way of twins, says a New York letter to the Buffalo Express, you have probably seen the so-called two-headed girl, Millie-Christine, consisting of two negroes joined together by nature much more compactly than were the famous Siamese twins. Millie and Christine have been shown by Barnum and other exhibitors for many years, and are now aged about forty. The Siamese brothers married two wives, as you will remember, and lived in South Carolina after retiring from the museums until the death of one from disease was immediately followed by that of the other from fright. A post-mortem examination proved that physicians had been right in saying that a surgical separation would have been fatal. In the case of Millie and Christine even the suggestion of parting them can not be considered, because they are joined from their hips nearly up to their chests.

But it was not a question of free will anatomy which led me to write of these women. Ex-Judge Dittenhofer is a New York lawyer to whom show people go with many of their knotty legal questions.

"But no case was ever presented to me that was easier to decide, and yet more curiously novel," the lawyer recently said to me, "than that of Millie-Christine. The death of Dick Fitzgerald, through whose show agency much of the business of the museums was done, recalls this matter, which came to me about a year ago, but has never been published. Fitzgerald called at my office with a letter from Millie-Christine requesting me to find out whether, if they were to marry one and the same man, it would constitute bigamy in the eye of the law. It was evident enough, although they did not say so explicitly, that an offer of joint marriage had been made to me, and that the husband to be chosen in case the triplicate union would be lawful. They urged that they had always been advertised as 'a two-headed girl,' the claim being made on their behalf that they were one individual with two heads, four arms and four legs. If that view of them could be accepted in law then a single husband would be quite proper. But they were pious Methodists and had no notion of doing anything wrong, legally or religiously. Fitzgerald wished my professional opinion for the guidance of the twins. Of course, the theory that they were one person was entirely untenable, and I had no difficulty in forming an opinion that their joint marriage to one man would be bigamy for him. It would entail no criminal punishment on the wives, nor was it likely that proceedings would ever be had against him under the peculiar circumstances. But I had to tell them that if the question ever came before a court, they would surely be decided twins, and only the one marriage ceremony which preceded the other would be valid, while the second one, although it might have occurred a minute later, would be invalid, and would possibly subject the husband to prosecution. At the same time I reminded Fitzgerald of the late Charles O'Connor's remark when he was asked whether it was legal to shoot a burglar to death on sight. 'The law would say hang you for it,' he exclaimed, 'but no public prosecutor or judge or jury would punish you for it and shoot the burglar.' After the same fashion I advised Fitzgerald that Millie-Christine's prospective husband might be sent to State's prison for bigamy, but that nobody would ever undertake to do it. However, the two-headed girl concluded to live unmarried."

ELECTRIC TANNING.

A Condensed Description of the New Method for Making Leather.

To gratify a number of inquiries the Shoe and Leather Review gives the following brief and concise description of electric tanning and its cost. The process, as described by those who have seen it, is a very simple one. The hides are placed in large cylinders, which revolve upon horizontal axes. The drum is filled with a decoction of tannin and closed. Provision is made for the passing of a current of electricity through the drum. The drum is kept slowly revolving, until the process of tanning is completed. The length of time required varies with the nature of the hide. For the lighter skins, such as sheep and goat, which used to require from three to six months, by the electric process are done in twenty-four hours. The heavier hides, such as calf, ox, cow or horse, require from seventy-two to ninety-six hours. By the old-fashioned bark process twelve months, or even more, would have been taken.

The cost of production is greatly reduced by this method, for not only is the saving in time, but in labor. The actual cost of working is reduced over fifty per cent. By the bark process the cost of tanning is from seven to eight cents per pound of dry leather, as against that of three or four cents by the electric methods. And again, a force of fifty men were required to produce a given quantity of leather, only ten are needed to produce the same by the new method. Heretofore large capital has been required to run a tannery having a regular weekly output. As hides often require to be in the tan vats a year or more, it will be seen that a great number must be in process of tanning in order that a certain amount of leather be turned out each week. In addition to extensive plant, heavy investments are represented by the hides in tannage. But the electric process completely revolutionizes this. Hides to worth the best Monday have been converted into leather and put on the market by Saturday.

HOW TO WALK WELL.

Take to Shoes with Low, Square Heels and Ample Toe Room.

A writer in the Phenological Journal gives the following advice, in an article entitled "How to Walk Well." "A great deal depends," he says, "on shoe leather, if we would get comfort and avoid injury. We are in a lively climate, which does not encourage us to wear the thick leathers of the Greeks and Hebrews. It was the advice of an forgotten young soldier to our marching volunteers of the civil war, 'Trust in God, but keep your shoes easy.' We must not have errors in our premises: a corn is a fatal error to a walker. Therefore, to walk well, Monday have been converted into leather and put on the market by Saturday.

"Light flannel is capital, all the year around. Caps are better than hats, by land as by sea, for the wind can not catch at them. One's stockings on a long tramp. But if, before starting, you soak your feet, fore and aft, so that they are eased in leather, they will keep cool and easy under you from morning till night. Break an egg in your boots!" said James T. Fields, who was a boy of life. But whichever you do, you will find it a great help and convenience, though the prescription may seem queer to a novice."

In the City of Mexico the income from the taxation of liquors and the license on saloons is very large indeed. Every liquor and pulque shop pays a monthly license. In addition to the license fees on all pulque coming within the city limits. For the fiscal year just ended this sale tax amounted to the sum of \$300,000, or more than \$1,500 a day. The pulque shops open at six o'clock in the morning and close at five o'clock in the afternoon, and none of the
